About Us

Classic industries provides a complete range of solutions for the food industry to improve Quality and Productivity, focusing on the distinct areas of industry. We manufacture Ultrasonic humidifier which consist of ultrasonic vibrators. The ultrasonic vibrator atomizes the water upto $\leq 10\mu\text{m}$ and produces humidity in the air.

Features:

- Elegant, compact and reliable.
- Stainless steel body.
- Easy to install.
- It controls the humidity automatically.
- Humidity control range 1%-100% RH, control exact $\pm 5\%RH$.
- Equipment can work automatically during the range, without any manual operation.
- Fogging chip size $\leq 10\mu\text{m}$.
- It controls the water level automatically.
- Digital display.
- High air flow with 6 inch exhaust fan.
- Noise and pollution free.
- High in atomizing efficiency.
- Atomizer reduces the temperature difference between the host and the water, thereby extending the product life.

Mode	CG –HM8	CG- HM4
Spray Capacity	≥ 8 lt/hr	>4 lt/hr
Air Flow	190CFM	190CFM
Fan speed	2650RPM	2650RPM
Voltage	230V/50HZ	230V/50HZ
Watts	500 W	250 W
Net Weight	25kg	17kg
Dimension	725*420*500mm	725*400*350mm
